APPENDIX AA

Denver Health Medicaid Choice Contract

- 2.5.7.3.2. EI is a federally and state funded and regulated program for children from birth through two years who have been identified with a developmental delay or have been diagnosed with a condition that has a high probability of resulting in a delay. In Colorado, Early Intervention Colorado is coordinated through the Colorado Department of Human Services (CDHS), Office of Early Childhood.
- 2.5.7.3.3. The Contractor shall provide a list of their credentialed qualified providers to the Department annually by October 30th and assure that there are adequate providers to serve the eligible children. The Department will provide a template for this report.
- 2.5.7.3.4. EI services are family-centered. Families work together as a team with professionals to develop an Individualized Family Service Plan (IFSP). This plan identifies the strategies, supports and services necessary to reach developmental outcomes identified by the family and the rest of the IFSP team. An Early Interventionist's work with young children and families is guided by this plan. The Individual Family Service Plan (IFSP) is considered the document for medical necessity of services.
 - 2.5.7.3.4.1. EI services are independent of the home health program and therefore the rule in which at sixty (60) days payment for services be shifted to the Fee-For-Service program is not applicable.
 - 2.5.7.3.4.2. The Contractor shall be responsible for the EI services through the duration of the services being received, subject to the member's eligibility and enrollment in the plan.
 - 2.5.7.3.5. EI services are provided where the child lives, plays and learns. Service settings may include the child's home, a childcare center, a relative's home, or other community settings. The IFSP team identifies learning opportunities that occur within the family's typical, daily routines. Early Intervention professionals provide support and guidance to families to enhance those natural learning opportunities and to help their child achieve the identified developmental outcomes.
 - 2.5.7.3.6. Services provided in a clinic or provider office do not qualify as Early Intervention services and should not be offered as a replacement for services provided in the members community.
- 2.5.7.4. Training on Department Policies and Member Populations
 - 2.5.7.4.1. The Contractor shall ensure that appropriate staff participates in periodic training programs sponsored by the Department designed to provide technical assistance to the Contractor with policy interpretation and coordination of services to maximize compliance with requirements.
 - 2.5.7.4.2. The Contractor shall be responsible for training Participating Providers and any Subcontractors.
- 2.5.8. Services Delivered Only to Members
 - 2.5.8.1. The Contractor shall ensure that Providers operating under the Contractor's Plan supply services only to Members. It is the responsibility of the Provider to verify that the individual receiving medical services is a Member on the date of service, whether the Contractor or the Department is responsible for reimbursement of the services provided and whether the Contractor has authorized a Referral or made special arrangements with a Provider, when appropriate. If a Provider has verified eligibility and enrollment as specified by the

5.1.6. Termination of Contract

5.1.6.1. After a State notifies the Contractor that it intends to terminate the Contract, the enrollees shall have the option to disenroll immediately without cause.

5.1.7. Liquidated Damages

5.1.7.1. Time is of the essence in the performance of this contract. The parties agree that the damages from breach of this contract are difficult to prove or estimate, and the amount of liquidated damages specified herein represents a reasonable estimation of damages that will be suffered by the Department from late performance, including costs of additional inspection and oversight, and lost opportunity for additional efficiencies that would have attended on-time completion of performance. Assessment of liquidated damages shall not be exclusive of or in any way limit remedies available to the Department at law or equity for Contractor's breach of contract.

5.1.7.2. If the Contractor fails to satisfactorily perform the services required under this contract, the Contractor shall, in place of actual damages, pay the Department liquidated damages as follows:

5.1.7.2.1. For each calendar day beyond the date: 1) specified in a corrective action plan approved by the Department by which Contractor compliance is to be achieved; or 2) the date that a corrective action plan is due but not submitted to the Department, the amount of three hundred dollars (\$300.00) per calendar day until the compliance is achieved or an acceptable correction action plan is submitted. If the Contractor notifies the Department that it will not be able to achieve compliance by the date specified in the corrective action plan, and explains in writing its reasonable efforts to achieve compliance, the Department may grant in writing an extension of the deadline for Contractor compliance. No more than fifteen thousand dollars (\$15,000.00) in such damages for failure to comply with corrective action plans shall be assessed during any contract year.

5.1.7.2.2. For each calendar day beyond the date that all requested documents, including but not limited to policies, procedures, reports, manuals and handbooks are required to be produced either by the contract or specified in a written request of the Department, the amount of three hundred dollars (\$300.00) per calendar day until the documents are produced. A written request of the Department will allow the Contractor a minimum of thirty (30) calendar days to produce documents. No more than fifteen thousand dollars (\$15,000.00) in such damages shall be assessed during any contract year. If the Contractor notifies the Department that it will not be able to produce the documents within the specified timeframe and explains its reasonable efforts to produce the documents, if the Department determines, in its sole discretion, that an emergency or unannounced visit is necessary, the said documents shall be produced immediately, or on a schedule determined by the Department. Failure to produce the said documents may result in the assessment of liquidated damages as set forth herein.

5.1.7.2.3. For failure to issue and report notice of action when required by Colorado Code of Regulations (CCR) Section 2505-10, Section 8.209, and federal regulations at 42 CFR § 438.400 and §438.404, a fine of five hundred dollars (\$500.00) for each occurrence shall

APPENDIX AA

Denver Health Medicaid Choice Contract

be assessed.

- 5.1.7.2.4. For failure to process and report grievances when required by C.C.R. 2505-10, Section 8.209 and federal regulations at 42 CFR § 438.400, a fine of one hundred dollars (\$100.00) for each occurrence shall be assessed.
- 5.1.7.2.5. For failure to comply with the Department's request for information, response to site visit requests or other reports by the defined timelines specified in the written request, the Department will assess five hundred dollars (\$500.00) for each calendar day for which the request is late.
- 5.1.7.2.6. All Medical Records shall be produced by the date specified in the Department's (or its designee's) written request, which shall allow a minimum of thirty (30) calendar days for the Contractor to produce the records for Non-emergency reviews. For each record specified in the Department's written request that is not produced within the timeframe specified in the Department's written request or any extensions granted, liquidated damages of three hundred dollars (\$300.00) per calendar day may be assessed against the Contractor. No more than fifteen thousand dollars (\$15,000.00) in such damages for failure to produce Medical Records shall be assessed during any contract year.
 - 5.1.7.2.6.1. If the Contractor notifies the Department (or designee) that it will not be able to meet the due date for the production of Medical Records, and explains in writing its reasonable efforts to produce the records, the Department may grant an extension of time for production of records in writing. If the Contractor notifies the Department that it cannot produce Medical Records due to the inability or unwillingness of a Participating Provider to produce the records, the Department may require exclusion of that Participating Provider from the Contractor's Medicaid network. If the Department determines, in its sole discretion, that an emergency review is required, the Contractor shall have five (5) Business Days from the date of the request to produce the Medical Records to the Department. In the case of a Provider site visit, the Contractor shall submit the Medical Records to the Department within two (2) Business Days of the site visit, or on a schedule determined by the Department. Failure to produce the said Medical Records may result in the assessment of liquidated damages as set forth herein.
- 5.1.7.3. Notwithstanding any other provision of this Section, if the Contractor is provided notice of termination for breach of contractual obligations pursuant to Section 15, Remedies, and the Contractor fails to cure the alleged breached in the time specified, in addition to any other damages that are applicable as the result of the termination, the Contractor shall be liable for three hundred dollars (\$300.00) per calendar day from the date set for cure until either the purchasing agency reasonable obtains similar supplies or services. If the Contractor is not terminated for default, liquidated damages shall not be due to the Department. The Contractor will not be required to pay liquidated damages when the delay in performance is beyond the control and without the fault or negligence of the Contractor.
- 5.1.7.4. If liquidated damages are imposed under this contract, the department may reduce the amount of any payments otherwise due to the Contractor by withholding the amount of such damages. Exercise of any of the remedial actions set forth in this section shall not relieve the Contractor from performance of any of its duties and obligations under this contract.
- 5.1.7.5. The Contractor will not be required to pay liquidated damages when the delay in performance

APPENDIX AA

Denver Health Medicaid Choice Contract

is beyond the control and without the fault or negligence of the Contractor.

- 5.1.7.6. The remedies available to the Department set forth above are in addition to all other remedies available to the Department by law or equity, are joint and several and may be exercised concurrently or consecutively. Exercise of any remedy in whole or in part shall not limit the Department in exercising all or part of any remaining remedies. The Department's exercise of any of the remedies set forth in this section shall not excuse the Contractor from performance of its obligations and duties under this Contract.
- 5.1.7.7. Failure to produce statistically meaningful results for ninety five percent (95%) of CAHPS program survey questions within timelines as described in contract Section 2.7.2.4.2 shall result in liquidated damages of five thousand dollars (\$5,000.00). Statistically meaningful results lower than ninety percent (90%) of CAHPS program survey questions within described timelines shall result in liquidated damages of an additional five thousand dollars (\$5,000.00) plus one thousand dollars (\$1,000.00) per each individual survey question where statistically meaningful results were not reported.

EXHIBIT N, FAMILY PLANNING METHODOLOGY

Colorado Medicaid Family Planning Claiming Methodology for Managed Care Programs

Overview

To determine what portion of managed care capitation expenditures to claim at the enhanced federal matching rate available for family planning (FP) services, the Department of Health Care Policy and Financing (the Department) uses a ratio of FP expenditures to total expenditures in the fee for service (FFS) population as a proxy measure. By establishing what percentage of total FFS expenditures is for FP services and by assuming that it likely mirrors the FP utilization experience in managed care programs, the Department then applies this FP ratio to total managed care service expenditures to determine what portion of those expenditures should receive the enhanced match. The Department has used this method since 2002.

Developing the FP Ratio

To develop the FP ratio on an annual basis the Department calculates total FFS FP expenditures for clients who are enrolled in the FFS program but eligible to enroll in managed care (numerator). This figure is then divided by total FFS expenditures for clients who are enrolled in the FFS program but eligible to enroll in managed care (denominator).

Key Considerations

1. In calculating FP expenditures and total FFS expenditures, the Department only uses expenditures incurred for clients enrolled in FFS but eligible to enroll in managed care.
2. In calculating FFS expenditures, the Department only includes expenditures for services covered in managed care programs.
3. In order to more accurately reflect the utilization and expenditures for covered populations, the Department does one FP ratio calculation for the children/families population group and one FP ratio calculation for the disabled population group.

Applying the FP Ratio

Once the FP ratio has been determined, the ratio is applied to the total managed care capitation expenditures on a quarterly basis.

Key Considerations

In calculating the total managed care capitation expenditures, the Department uses only physical health capitation expenditures, excluding mental health capitations, capitations for the Program of All-inclusive Care for the Elderly, and Administrative Services Organization capitations.

Spreadsheet Guide

The Department uses a running spreadsheet to calculate FP expenditures for managed care. Attached is a guide defining each column and how the final calculation is determined.
